THERE is a rainbow of promise visible, one end of which rests on the dome of the national capitol and the other upon the horizon of the Pacific

ONE of the most earnest advocates of free coinage of silver is the Los Angeles Herald. While its contemporaries are either mum on the subject or against us, the Herald pegs away with a devotion that is admirable. Its editorials are sound and are appreciated in Arizona.

NINE-TENTHS of all the advertising agents and large advertisers throughout the United States are cancelling their advertising contracts, while many of them are settling their accounts with notes given for two years unsecured, interest at 8 per cent per annum.

BUILD up one big city in central Arizona and a hundred other towns will feel the stimulating effect of its growth. Every effort by the people of the territory to build up Phoenix will be rewarded by an increased population for every town in Arizona. Every progressive circle must have a hub, from which flows through various arteries to its offspring that life giving stimulant that moves the world.

CLEVELAND's letter of acceptance of the Democratic non instion about one year ago read as tollows on the silver plank:

The people are entitled to sound and honest money abundantly sufficient to supply their business needs but whatever may be she form of the prople's currency, national or state, gold, silver or paper, it should be so regulated and guarded by governmentaction, by wise and careful laws, that no one can be deluded as to the certainty and stability of its value. Every dollar put into the hands of the people should be of the same intrinsic value or purchasing power. With this condition absolutely guaranteed both gold and silver can be eafely utilised upon equal terms in the adjust-ment of the currency.

He has evidently been fishing too long and forgot himself.

President Cleveland has declared in favor of a gold standard without equivocation. In voicing his sentiments to congress he speaks for financiers of the east almost to a man. This class of people have nothing to lose and everything to gain by the ousting of silver from the place it has occupied as one of the money metals of the world. Without silver as money the banks will be called upon to furnish the deficiency in the shape of notes which will place them in a position in the very near future to dictate to the American people, how they shall transact their business, to fix the rate of interest and virtually to control the commerce of the country at an enormous profit. Will the laboring peo--plo of the United States open their eyes before it is too late?

THE stagnation in business affairs is best illustrated by the great falling off in freight and passenger traffic over the railroad lines. The traffic over the N. M. & A. road running from Benson to Nogales and thence to Guaymas has been a most remarkable example of the condition of affairs. The cutting down of expenses all over the United S ates by transportation companies speaks louder than words of the stagnation. As another instance of economy being practiced, the wires bring the news that the New York Central has taken off four of its daily passenger trains running to the World's Fair. Other roads are following in the same path. All of this light travel and light movement of freight is, we are told, due to the Sherman act. What a millenium will have been reached when it is repealed.

\$10,000 Damages

A suit was filed in the district court today by C. S. Clark, attorney for plaintiff. in which D. K. Wardwell sues James Reilly, A. Wentworth, T. Cowan and G. W. Bryan for \$10,000 damages sustained by plaintiff by resson of being falsely imprisoned by defendants. The plaintiff, it will be remembered, was sentenced to jail by the supervisors for refusing to give up the keys to the court house, and spent ten days behind the bars before being released on a writ of habens corpus,

From Thursday's Daily.

C. S. Fly and Allen Walker went to Bisbee this morning.

to Bisbee yesterday by private conveyance.

Bisbee had a big ram on Sunday which frightened the people but no great damage was done.

W. C. Read is in Los Angeles. While there his place at the Blinn lumber yard will be occupied by E. H.

Line Rider Chalmers has been ordered to report for duty at La Noria. the following resolutions: Bisbee has been his headquarters

The sum of £495,000 in gold was withdrawn from the Bank of England Swayne & Son. Philadelphia. s yesterday for shipment to the United States. The Bank of England is charging a premium on eagles and is holding bar gold at higher rates. The sum of £830,000 was shipped yesterday for New York on the North German Lloyd steamer Lahu and the White Star liner Britannic.

A new phase of the silver question was presented yesterday in the shape of an apparently authorized proposition from London bankers, backed by the English government, to leading New York financiers, in which it was asserted that if the United States would maintain the present Sherman law on the statute books England would renew free coinage of silver in India at the increased ratio of 24 to 1.

The silver and anti-silver men held a conference vesterday to decide as to procedure in the House on silver legis-

The silver men offered to introduce a bill repealing the Sherman law and allowing free coinage of silver, the ratio to be fixed by the House,

The anti-silver men could offer a substitute bill if they wished, but the silver men wanted to get free coinage before the H use in some way. The latter further agreed that debate should continue three weeks, and the anti-silver men withdrew to consider the proposition before giving an answer.

BORN.

BECKWITH-In Bisber, August 9/1893, to the wife of C. L. Beckwith,

The Right Spirit. Senator Stewart ably set forth the position of the silver men in his remarks in congress on Tuesday, on a silver certificates equal in amount to the silver bullion in the treasury purchased under the the act of July 14, 1890, in excess of the amount necessary at its coinage value to redeem the treasury notes issued under that act and to use the same to provide for any deficiency in the revenues of the government, surplus of such certificates to be used in purchase of 4 per cent boads at their market price, not exceeding 12 per cent premium. His bill provided, he said, for issuing Resolved, That we will support the \$100,000,000 of treasury notes to pay would give about \$150,000,000 of inwas in such a state of panic. It would Resolved, that a committee of seven be unpatriotic for any man to get up cause they believed that that would be could not agree to that, but they did not want to be put in a position of contending against what was absolutely necessary at the present time. The Post says: America cannot He was in favor of any temporary whole financial question could go on.

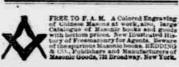

A Narrow Guage.

A son of the Emerald Isle who was appropriately dubbed "a green hand" by the boys, was sent out a few days wrought by free silver in the United | ago from Tucson at the head of a gang to repair a piece of track that resembled a dish rag after a fish dinner. The Times comments on the message After sizing up the situation he sent and says it would be difficult to con. in the engineer with the following

> Please send me a new track guage. This one only fits the track in some places. MIKE DOLLY. And a keg of

Michael now goes by the name of narrow guage" with the boys, and has been raised, but not in the estimation of the company.
